

Connecting People and Cultures

Building a Shared Future in Asia

Temasek Foundation Summary Report 2015/2016

A New Chapter

Since May 2007, Temasek Foundation has been working with partners across Asia to build human and social capital. Over the years, we have developed valuable connections, networks, and friendship in many communities. We are honoured and humbled by the passion and commitment that we have seen in the leaders and participants of our programmes in driving change in their communities.

Starting 6 September 2016, Temasek Foundation will be known as Temasek Foundation International, a non-profit philanthropic entity established by Singapore investment company, Temasek, to focus on building people, communities and capabilities, and rebuilding lives. Temasek Foundation International will also manage the Singapore Technologies Endowment Programme (STEP) which focuses on social and cultural activities, leadership, environment, and innovation programmes for youths.

The establishment of Temasek Foundation International, alongside five other Foundations – Temasek Foundation Cares, Temasek Foundation Connects, Temasek Foundation Nurtures, Temasek Foundation Innovates, and Temasek Foundation Ecosperity – reaffirms Temasek's commitment to the wider community in Singapore and beyond, for generations to come.

Temasek Foundation International will continue to be fully committed to support the co-learning and co-sharing among communities, and we look forward to your continued support, partnership, and friendship in building a shared future.

For more information on Temasek, its Charter and its commitment to the community, please visit <http://www.temasek.com.sg>.

About Temasek Foundation

Set up by Temasek, an investment company based in Singapore, Temasek Foundation is a Singapore philanthropic organisation that seeks to build a more prosperous, stable and connected Asia through building human and social capital. Working with institutions from Singapore and the region, we support training programmes that build capabilities in health care, education, public administration and disaster-response, and programmes that promote positive networks of cooperation in and across communities in Asia.

Overview of Grants & Outreach

NINE YEARS IN NUMBERS: MAY 2007 – MARCH 2016

Our Approach

Temasek Foundation has reached out to thousands across Asia. Our programmes bring together different resources – grants from Temasek Foundation, the expertise of various institutions, and the commitment and resources of host community organisations, and collectively, we contribute to Asia’s

human and social capital development.

Our grant-making is grounded in these core principles:

- **Outcomes - Focus:** We support programmes that contain a strong focus on outcomes with a multiplier effect, through the transfer of learning by leaders and trainers to their peers and

colleagues, to bring about sustained improvements in their communities.

- **Partnerships:** From defining needs to co-developing and co-implementing programmes, host community and content partners are critical in all phases of a programme, to ensure that programmes are

relevant, meaningful and well-implemented.

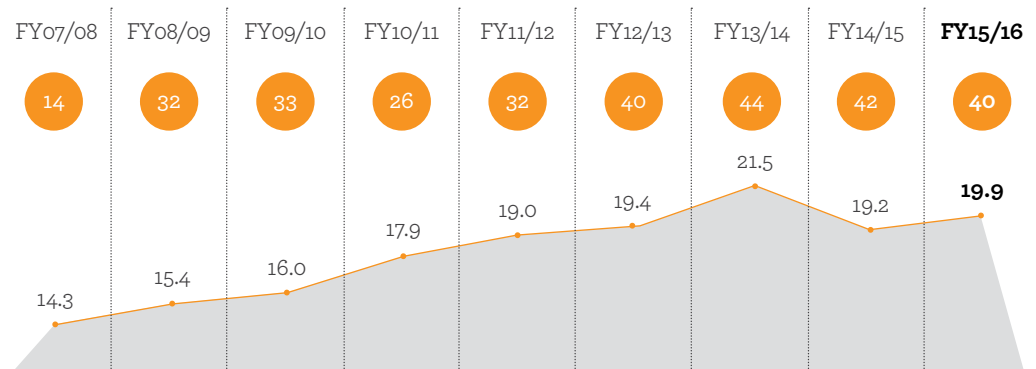

- **Ownership:** By co-owning the planning and implementation of programmes, leaders of partner organisations signify the importance of the programmes and drive them to success.
